

PUBLIC & RETAIL EV CHARGING SOLUTIONS

SWTCH provides end-to-end charging solutions for public and retail settings, enabling a seamless charging experience for EV owners while optimizing usage and revenue for business owners.

EV CHARGING - MORE THAN JUST AN AMENITY

Grow your customer base with high-value clientele.

Increase the time customers spend at your business.

Position your business as a leader in sustainability.

Create new and recurring revenue streams.

IT'S A NECESSITY — ARE YOU READY?

As more and more drivers go electric, businesses are adapting. Get ahead of the curve and attract high-value customers by providing an increasingly important service that makes your business stand out from the competition.

SWTCH END-TO-END SOLUTIONS - FROM DESIGN TO OPERATION

No matter where you are in the process, we'll execute a plan of action to meet your business needs.

01. DESIGN

Careful design will help you save time and money. As part of our services, we'll advise on:

- Electrical Sizing & Layout
- Payments & Access
- Government Incentives

02. SUPPLY

All our solutions are built on the global open communication standard, OCPP, to ensure more choice and flexibility in terms of hardware, features, and pricing.

- Product Recommendations
- Level 2 and DC Fast Chargers
- Open-Standards Compliance

03. INSTALL

Once we've established the appropriate hardware, we'll make sure it's safely installed.

- Trusted Network of Certified Local Installers
- Quick Installation Turnaround
- Adherence to Electrical Safety Codes

04. MANAGE

Once the charger is in the ground, we take care of the rest.

- Access Control & Remote Monitoring
- Automatic Energy Metering & Billing
- 24/7 Driver Support

FLEXIBLE AND SCALABLE TECHNOLOGY

New construction or retrofit, we'll help you come up with a plan for EV charging that's scalable, future-proof, and cost-effective.

TRULY OPEN STANDARDS

SWTCH's technology is built on the global open communication standard, OCPP, ensuring that charger owners can switch seamlessly between hardware and software providers without worrying about vendor lock-in or stranded assets.

Our technology is scalable. SWTCH's smart load management helps keep electrical infrastructure and install costs low. From 1 to 100 chargers, we'll make sure all your EV charging needs are covered.

DC FAST CHARGER

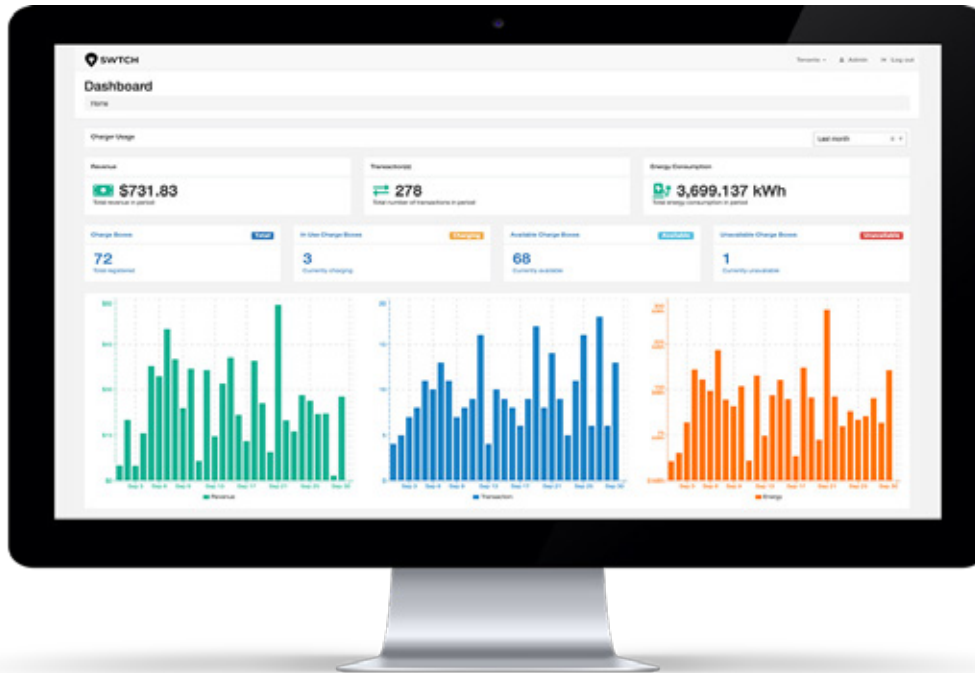

Fast chargers will attract drivers who need a quick charge, a great way to attract high value customers along busy transit routes.

LEVEL 2 CHARGER

Encourage drivers to stay a little while and explore your business while providing them with charging as an amenity.

FULLY FEATURED FOR A SEAMLESS CHARGING EXPERIENCE

VISIBILITY AND CONTROL FOR CHARGER OWNERS

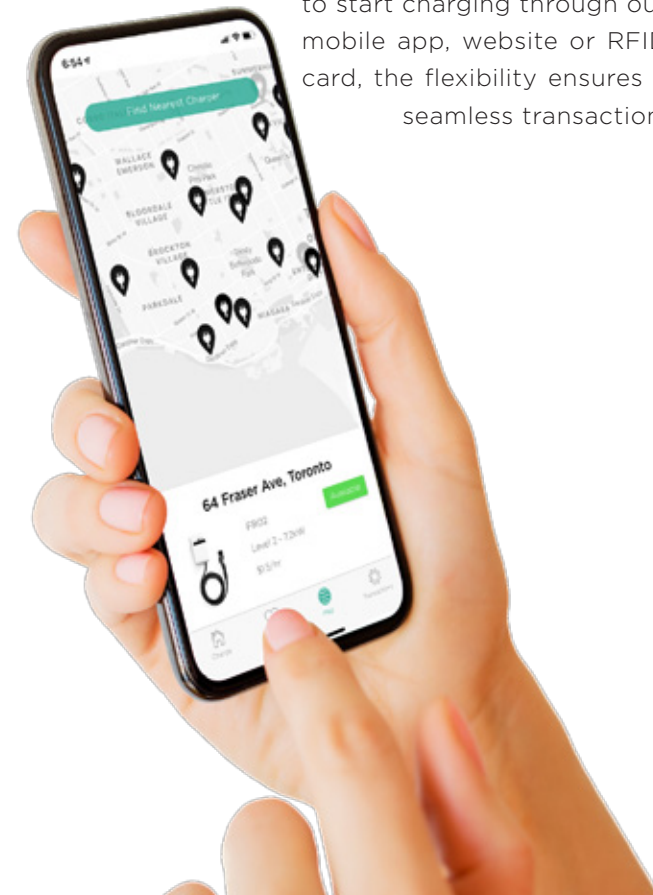

The admin dashboard provides charger owners with real-time usage data and insights. Detailed reporting will help you understand customer behaviour and make key decisions on how and when to upgrade.

EASY INTERACTION AND ACCESS FOR DRIVERS

We manage charging, payments & driver support so you don't have to worry about a thing. Our 24/7 customer support team means that your drivers will always be taken care of.

DRIVERS HAVE THE CHOICE

Whether your drivers want to start charging through our mobile app, website or RFID card, the flexibility ensures a seamless transaction.

MAXIMIZE YOUR INVESTMENT WITH LOAD MANAGEMENT

No capacity? No problem. SWTCH offers smart load management to overcome the challenge of limited electrical capacity and help keep infrastructure upgrade costs low.

Without Load Management

With Smart Load Management

AN ESSENTIAL TOOL FOR MODERN EV CHARGING

With SWTCH's load management, available electrical capacity is shared among a group of chargers, allowing more EV drivers to be supported at lower cost. Smart energy management will ensure that valuable electrical capacity is never sitting idle.

We'll help establish a load-sharing ratio that maximizes existing and/or planned capacity, supporting the greatest number of chargers while maintaining driver satisfaction.

Support up to **4x** more EV chargers without additional infrastructure upgrades.

WHY SWTCH?

We bring a deep understanding of EV charging for public and retail settings. Our thoughtful, tailored approach will make sure all your bases are covered.
